S I R :

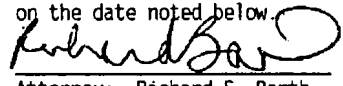

In response to the requirement that applicants provide a statement of the substance of the June 13, 2007 telephone interview with the Examiner, applicants provide the following statement:

Examiner Solola called the undersigned on June 13, 2007 regarding the above-identified patent application.

The above-identified patent application is a CIP of PCT/JP02/00400.

CERTIFICATE OF FACSIMILE  
TRANSMISSION  
PTO NO. 1-571-273-8300

TOTAL PAGES: 3  
I hereby certify that this paper is being facsimile transmitted to the Commissioner for Patents on the date noted below.

  
Attorney: Richard S. Barth

Dated: June 13, 2007

In the event that this Paper is late filed, and the necessary petition for extension of time is not filed concurrently herewith, please consider this as a Petition for the requisite extension of time, and to the extent not tendered by Form PTO-2038 attached hereto, authorization to charge the extension fee, or any other fee required in connection with this Paper, to Account No. 06-1378.

During the aforesaid telephone discussion, Examiner Solola questioned the undersigned if claims were added in the AMENDMENT UNDER 37 CFR 1.111 filed on May 18, 2007, since claims appear in the electronic image file wrapper of the above-identified application in an entry on May 18, 2007. The undersigned informed Examiner Solola that no new claims were added in the aforesaid AMENDMENT filed on May 18, 2007 and that no amendments were made to the claims in the AMENDMENT filed on May 18, 2007.

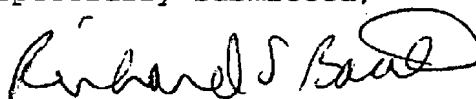

An English-language translation of applicants' International application PCT/JP02/00400 (pages 1 to 282) was submitted with the aforesaid AMENDMENT filed on May 18, 2007. Apparently, the claims (pages 275 to 281) and the Abstract (page 282) of said English-language translation of PCT/JP02/00400 were separated from the remainder of the English-language translation and erroneously placed in the USPTO electronic image file wrapper of the above-identified application as "Claims" and "Abstract" associated with the aforesaid AMENDMENT filed on May 18, 2007.

The USPTO electronic image file wrapper of the above-identified application also has a separate entry for May 18, 2007 entitled "Specification (274 pages)." This is the first 274 pages of the English-language translation of PCT/JP02/00400.

It is respectfully requested that the USPTO electronic image file wrapper of the above-identified application be corrected to

replace the May 18, 2007 entries of "Claims," "Abstract" and  
"Specification (274 pages)" with a single entry of 282 pages  
entitled "English-language translation of PCT/JP02/00400."

Respectfully submitted,

---
